RE: Expenditure and Revenue Reports for March 2005

The total year-to-date funds expended and/or encumbered through the month of March is \$30,156,580.00 of which \$4,732,636.00 are encumbered funds.

The total current unrestricted fund expenditures for Instruction & General through March are \$12,959,956.00, which is 71% of the projected budget. The expenditures in instruction are much larger than at this time last year. There are several factors involved in the difference between the two years, one of which was from moving departments into instruction. The other is due to the change in how payroll is being handled. In years past faculty were paid monthly and in April and May they were paid for their summer months. Payroll now is semimonthly and we pay faculty over twenty four pay periods. It is now more consistent and more accurately reflects the expenditures in Instruction during the year. Institutional Support had a correction in March, which resulted in the release of encumbered funds that had already been expended. In March we had \$37,290.00 encumbered funds in Institutional Support as compared to \$277,289.00 in February. Internal Service Departments are showing to have expended 100% of the budget. Of the YTD expenditures there are \$67,816.00 still showing as encumbered funds and each month \$59,929.08 is credited to Computer Services as a departmental charge out. We anticipate that Internal Services will still come in at budget. Student Aid has expended 100% of the budget for the year, which is correct for this time of year. The bookstore expenditures remain above the projected budget, which has been the trend for the auxiliary services area. Total expenditures for current unrestricted funds are \$12,959,956.00.

Restricted Funds had expenditures of \$103,427.00 for Grant funds and \$70,473.00 in the restricted student aid. Grants are on track for their fiscal years and Student Aid expenditures should almost be complete for the year. Total year-to-date restricted expenditures are \$5,259,893.00.

Plant funds had \$1,484,378.00 in expenditures for the month for the construction projects, total year-to-date plant fund expenditures are \$11,936,731.00.

The total expenditures year-to-date through March 2005 is \$30,156,580.00.

The revenue report for March 2005 shows \$1,350,581.00 as the revenue for current unrestricted funds. This is mainly from the state appropriation and oil and gas revenue. The total year-to-date revenue for unrestricted funds is \$16,925,085.00.

There were no funds draw for restricted funds in March, there will be draws made in April to finish bringing in the restricted student aid.

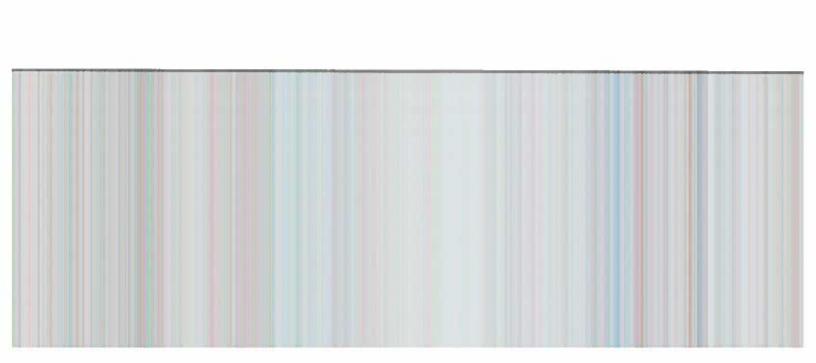

Plant funds had a draw for \$631,671.00 in March with the total draw year-to-date for plant funds at \$6,237,983.00. We are ready to complete the draws for GOB funds for the capital projects. The budget for \$8,105,075.00 includes the GOB funds that were approved last November. Total revenue draw year-to-date for plant funds is \$6,237,983.00.

The total revenue year-to-date is \$27,624,384.00

Oil and Gas remains strong, with the allocation for February coming in at \$579,382.00. The total revenue year-to-date for the oil and gas equipment tax is \$914,425.00. Total year-to-date for oil and gas and oil and gas equipment tax is \$5,101,834.00. We expect this total to be over 6.7 million at year end.

The investment report remains the same as last month. We have been able to cash flow the construction projects with the draws and with oil and gas funds.

This is the financial report for March 2005.

SUBJECT:

Budget Request

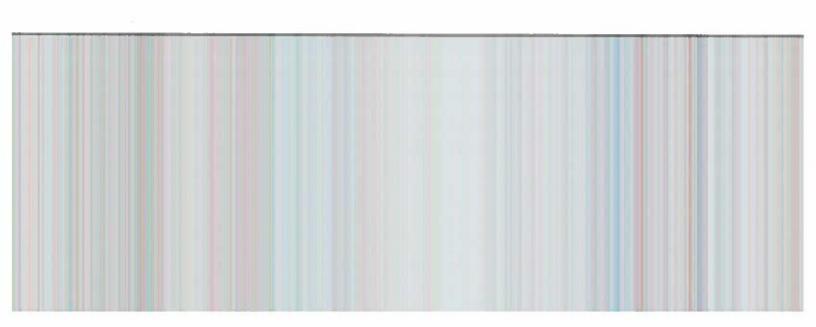

Thank you for your input at the Board Budget Work Sessions on Tuesday, April 5, and Wednesday April 6, 2005. After much thought and discussion, I submit to you the recommended 2005-2006 budget changes. I sincerely feel these changes present a very aggressive but realistic budget.

For the future health of this institution, we must address compensation. My recommendation for a compensation increase is 4%. I don't want this to be seen as unyielding or contentious, but we must start the process toward getting back on track with the NMJC Salary Plan. Currently, salary compression in all positions is hurting our ability to compete, and has caused considerable anguish among incumbent positions. I am also recommending an increase from 3.5 to 4.5 percent on the institutional participation on the Supplemental Retirement Plan.

In terms of our revenue from oil and gas, oil and gas equipment, and property taxes, the projected revenue is based on 3.5 mills of the assessed evaluation of the above. Because we are 1.5 mills below the allowable taxable rate of 5.0 mills, I feel the projections are real and conservative.

We are working on the additional requests for information. A portion of the documentation is included in the board packet, and the rest will be provided at the April 14, 2005 board meeting. Once the budget is approved, we will make a new copy for you.

Thank you for your consideration!

Subject: Staff Compensation Recommendation

During the budget work session, the administration recommended a compensation dollar amount of \$375,000 or a 5% across the board compensation increase for each employee. Attached you will find a spreadsheet that details a 4% increase for each employee, as well as a spreadsheet that provides as minimum 2% compensation increase with varying amounts being applied to the Market Plan.

I am recommending that you approve \$300,000 for the 2005-2006 compensation increase at 4% increase to each individual or utilize the Salary Plan spreadsheet to apply varying amounts to each individual.

I did not give the attached spreadsheet to the staff or the media.

Thank you for your consideration!
